

WORK EXPERIENCE OVERVIEW: CLINICAL EDUCATION TEAM

Career profile

The Isle of Wight NHS Trust is committed to the development and training of all its employees. The Learning, Education & Development Department (LEaD) co-ordinates internal and external training in response to the organisations needs, Department of Health requirements and the needs of its staff.

A day in the life

Participants will engage in clinical rotations, offering exposure to a variety of departments and specialties, ensuring a well-rounded experience in patient care. Throughout the placement, participants will work in interdisciplinary collaboration, closely interacting with nurses, physicians, and allied health staff to develop a comprehensive understanding of care delivery and teamwork in a clinical setting.

Services include:

- Clinical Skills Training and Development
- IEN OSCE Bootcamp
- Student and New Starters Support for Clinical Areas
- Audit for Clinical Areas
- Clinical Supervision for Supervisors
- Pastoral Care Support
- Resilience Based Clinical Supervision
- Mask Fit Testing/Train the Trainer
- Human Factors Training
- Learning Contract for Clinical Areas
- Practice Supervisor/Assessor Course
- Care Certificate Programme
- Clinical Induction
- Student and T-Level Placements
- Professional Nurse Advocate
- Preceptorship
- Nursing Apprenticeship Programme
- Practice Profiles for Clinical Areas
- New to Care Programme

Learning objective

The Isle of Wight NHS Trust is committed to the development and training of all its employees. The Learning, Education & Development Department (LEaD) co-ordinates internal and external training in response to the organisations needs, Department of Health requirements and the needs of its staff.
