Learning Environment Mission Statement			

LEARNING ENVIRONMENT PROFILE

General Information	<p>http://www.iow.nhs.uk/our-services/planned-care-services/outpatient-booking-and-records/outpatient-bookings.htm</p> <p>Access to the main Outpatient Department is now via a new entrance which is located off the North carpark, where there will be a pick up and drop off area.</p> <p>The new entrance now has a 3 way 'traffic light system' between Children's ward entrance, Stroke Ward and Main OPD, which enables patients to and from Outpatients to pass more safely to the department.</p> <p>On entry to the Outpatients department visitor are met by a member of staff in a 'meet and greet role' – who ensures that anyone entering the department are screening using covid screen questions and to confirm their appointment within the department. Hand washing facilities and hand sanitiser is available on arrival and in all waiting areas.</p> <p>Patients are given a laminated card to put on their seat when they are called for an appointment. This will ensure staff are aware that the seat needs cleaning prior to the next patient sitting down.</p> <p>We have a limit of 5 people only in one waiting room and 18 people in our larger waiting room. This allows for appropriate social distancing.</p> <p>Screens are in place at the reception desk to give added protection and the area will undergo enhanced cleaning.</p> <p>Safety huddles are carried out each morning to ensure staff are updated on current safety updates and to check staff wellbeing and to highlight any potential problems that could be encountered. Safety equipment checks are discussed at the safety huddle each morning.</p>
Description of Service and Client Group	<p>Our role is to provide a consultant service for people on the Island so they can receive treatment for a whole range of injuries and other medical conditions. We run over 100 clinics a week in 3 departments and provide nursing support for clinics in other specialities within the hospital.</p>

Description of related services & Client group	We also support clinics for speciality teams visiting from the mainland including: Oncologists, Vascular Surgeons and Plastic Surgeons.
