

Delivering better maternity services

Anne Pennells

Head of Midwifery

Kirsty Arnold

Midwife

Making progress

- We welcomed the Care Quality Commission(CQC) in October 2022 and they rated our service Good
- The regional maternity team also visited

Inspected and rated

Good

What our families say

In January 2023 we were delighted to share that we had performed above the national average in the 2022 National Maternity Survey.

We are continuing to improve the quality of care across our maternity services by:

- Working in collaboration with our service users
- Robust quality improvement plan
- Maintaining compliance with all national recommendations

great people great place

What makes a good team and service

Making a difference

“Kirsty was incredible during my c-section with Darcie. I have never met someone so passionate about their job or profession.

“Kirsty took the time to explain everything to me and my partner, she made sure I wasn't in any pain, and was just a constant source of support throughout my whole delivery.”

Our baby boy Cody was Kirsty's qualifying baby in June 2022 and I was so glad I had her by my side through it all! Even afterwards and we were in the SCBU she came and checked on us both. The Best ❤️ Kirsty Arnold

I have never been more thankful for Kirsty after the birth of our daughter of India ❤️ she was a true angel after 3days in hospital, it was Kirsty that really changed around our stay. So supportive, reassuring and kind. So genuine & calm. We also can't thank you for all your breastfeeding support 🌻
